

OPEN CALL: WERKSTADT TAKEOVER

You are an **artist, designer, musician** or **author** from NRW and need a small studio where you can work for a while by yourself? You are **socially engaged in the region** and need a place where you can plan your activities? You are a student looking for a space to work, and brainstorm ideas for a project? You come from Katernberg, Schonnebeck or Stoppenberg and need a space for your **local projects**?

If so, we have a place where you can work concentratedly, draw, write, script, program, photograph, compose, paint, plan and think.

Initiated by PACT, the WerkStadt is an independent project space in Essen-Katernberg – a place for experiments and a meeting place and forum for the local community. While our regular programme of discussions, exhibitions, activities for children, concerts and much more is currently on hold, we are opening our doors – to you, to your ideas, to **your takeover!** The WerkStadt is a **collective archive**, a shared resonance space for all those who have ideas and currently need space to develop them.

WERK STADT
